FROM: Pamela Grubaugh-Littig, Reclamation Engineer *pgl*

RE: Status of Ownership, Hecla Mining Company, Escalante  
Silver Mine, ACT/021/004, Iron County, Utah

I spoke with Colleen Kelly, Environmental Supervisor for Hecla Mining Company, on December 31, 1984 regarding the status of the permit transfer and liability for the Escalante Silver Mine. This mine was formerly owned and operated by Ranchers Exploration and Development Corporation (Redco). The articles of merger were signed by the parties on July 26, 1984. They have not done any paperwork with the state yet.

I told her the Division will send her a permit transfer form and would like notification of the bond liability for reclamation as soon as possible.
